

2016 Alighting Forum

2016.06.09-2016.06.10

China. Guangzhou

China Import and Export Fair Pazhou Complex, Guangzhou, China

Meeting Room No. 8 (Area B)

Pondering lighting-Restructuring and Breakthrough

Striving to Stage the World's Biggest Lighting Exhibition Guangzhou international lighting exhibition Witness the trends of technological innovation and change of the lighting industry.

Using the theme of "**Pondering lighting**", the two-day Alighting Forum which includes in-depth presentations and a C-level interactive forum, decodes the lighting industry trends and topics for 2016. It aims to inspire you to think "out of the box" in the internet era when setting business strategies in the dynamic and fast changing lighting industry. Speakers include leaders from associations, analysts, researchers and the head of enterprises.

Organizers:

Guangzhou Guangya Messe Frankfurt Co Ltd

Guangzhou Alighting Electronic Commerce Co., Ltd

Co-Organizers:

Alighting.cn

Alighting business

Alighting design

CSPG-GALR

Agenda:

Venue	June 9	June 10	
	Meeting Room 8 (North)	Meeting Room 8 (North)	Meeting Room 8 (South)
AM	/	Smart City- Intelligent control and management of Urban lighting	Material technology progress and lighting quality

PM	Pondering lighting: Restructuring and breakthrough	Power module and photovoltaic-thermal Integration	Light source device technical development and Marketization
-----------	---	---	---

Pondering lighting -Restructuring and breakthrough ——C-Level Think Tank

Time: June 9th, 12:55-17:25 PM

Venue: Area B·Meeting Room 8 (North)

Keywords: E-commerce, O2O, Integration boom, Shuttle down boom, IPO restart, Patent war, Price war, Channel war

Smart city- Intelligent control and management of urban lighting

——Technology Forum 1

Time: 10 June, 9:30-12:00

Venue: Area B·Meeting Room 8 (North)

Keywords: PPP, Smart lighting, EMC, Street lights, High power source, Municipal management, Streetlight Solution

Material technology progress and lighting quality enhancement

——Technology Forum 2

Time: 10 June, 9:30-12:00

Venue: Area B·Meeting Room 8 (South)

Keywords: Light engine, Graphene, Reliability, Heat dissipation, Secondary optical, Modularization

Power module and Photovoltaic-thermal Integration ——Technology Forum 3

Time: 10 June, 13:30-16:30

Venue: Area B·Meeting Room 8 (North)

Keywords: Lightweight, Without-Power, Digitization, Electrolytic capacitor, Solid Cap, Stroboscopic, PWM, Wireless dimmer, Cloud Computing, the Internet

of Things, Sensing, Numerical Control, Communication

Light source device technical development and Marketization —Technology Forum 4

Time: 10 June ,13:30-16:30

Venue: Area B·Meeting Room 8 (South)

Keywords: No package chips, silicon substrate, CSP, vertical chip, the localization of equipment, costs, MOCVD; Ceramic Package, Phosphor Free, Light Engine, Wafer Level Package, Flip, MCOB, COB

THINKLIGHT : A New Dimension

9 - 12 June 2016

A/B Box, Area A, China Import and Export Fair Complex, Guangzhou,
China

The New Dimension of Light

Light is ubiquitous and inalienable with our daily living. Enabled by connectivity technologies, the value delivered by lighting are now well beyond basic illumination. Latest technological breakthroughs on sensors, light sources and power over Ethernet further boost the development of smart lighting system and allow improvements on productivity, safety and even for health care.

Event theme in 2016

The forward-thinking theme “THINKLIGHT – A new dimension” was set to encourage the industry players think outside the box and hence create a compelling future.

The lighting and LED industry is occurring massive transformation. Advancements in lighting technologies not only serve to enhance the functionality and efficiency, but also enable diversified applications to optimize living comfort. “Connectivity”, “Internet plus”, “Smart home and building” and “Cloud computing technology” will be the upcoming prospects not to be missed. Niche markets are also being explored such as wellness and aesthetics which extending the new capabilities for LED and even the industrial landscape.

We believe lighting innovators are brimming with the spirits of progressive invention and it is important for the industry players to respond to market dynamics. The 2016 event programs are aiming to encouraged to “THINKLIGHT” – expanding the imagination to uncover a new dimension of lights. Let us come together and embark on this inspiration journey.

Organizers:

Guangzhou Guangya Messe Frankfurt Co Ltd
Guangzhou Alighting Electronic Commerce Co., Ltd

Co-Organizers:

Alighting Media Group
CSPG-GALR AALD、CLDA

Agenda:

A-box(THINK DESIGN & PROJECT)

Time	June 9	June 10	June 11
Venue	A-box:Along Pearl Promenade, Area A (Opposite to Hall 2.1)		
AM	/	THINK·PROJECT Hotel lighting planning	THINK·DESIGN Lighting application Think light (By CLDA)
PM	THINK·DESIGN Design Concept	THINK·PROJECT City Lighting Plan	THINK·DESIGN Lighting application Think light (By AALD)

* Please notice the newest information of this agenda in the website (www.alighting.cn)

B-box(THINK·TECHNOLOGY ·MARKET)

Time	June 9	June 10	June 11
Venue	B-box: Along Pearl Promenade, Area A (Opposite to Hall 3.1 4.1)		
AM	/	Think·technology LED2.0	Think·technology Advanced material- Shape the quality and reliability
PM	Think technology Package & linear IC	Think·market NewEmerging market Market forecast	Think·market Internet of things 4.0 IOT and Industry 4.0

* The above information will be subjected to change without prior notice.

Design Concept& Application

Time:June 9, 13:00-16:35

Venue: A-Box Area A

Keywords: interactivity, people oriented, healthy lighting, light quality, simplicity, environmental atmosphere, sunlight collection

Hotel lighting planning

Time: June 10, 10:00-12:05

Venue:A-Box Area A

Keywords: Hotel design, intelligent hotel, hotel management, art of light-fixture

City lighting planning

Time:June 10, 13:00-16:35

Venue: A-Box Area A

Keywords:intelligent city, city landscape, lighting festival, lighting planning, tourist city

Lighting Application

Time: June 11, 10:00-16:35

Venue: A-Box Area A

Package & linear IC

Time: June 9, 13:30-17:05

Venue:B-Box Area A

Keywords:High voltage chip, AC-LED, linear IC, non-power, control IC, Driver IC

LED2.0

Time: June 10, 10:00-12:05

Venue:B-Box Area A

Keywords: graphene, Silent-Pipe, Refractive index, Integration of electric light, Phosphor

New lighting market

Time: June 10, 13:00-17:05

Venue:B-Box Area A

Keywords: foreign trade market, north america market, Russian Market, emerging international markets

Materials science: Shape the quality and reliability

Time: June 11, 10:00-12:05

Venue: B-Box Area A

Keywords: Silent-Pipe, Power circuit board, fluorescent material, radiator

IOT and Industry 4.0

Time: June 11, 13:30-16:35

Venue: B-Box Area A

Keywords: intelligent lighting, IOT, Internet of Things, intelligent household, wireless technology, Cloud data
